includes a locking tab and a locking slot.

7. The presentation display of claim 1 wherein disposed within either the left tray or the right tray is a support structure selected from the group consisting of shelves, trays and pockets.

8. The presentation display of claim 1 wherein the dimensions of the left tray and the 1 right tray are approximately equal, and further wherein the combined width of the left tray and 2 right tray is about equal to or less than the width of the center panel. 3 9. The presentation display of claim 8 wherein the height of the center panel is in the 1 range of 10 inches to 72 inches; the width of the center panel is in the range of 12 inches to 48 2 inches; the height of the left and right tray is in the range of 8 to 60 inches; the width of the left 3 and right tray is in the range of 6 inches to 24 inches and the depth of the left tray and the right 4 5 tray is in the range of 1 inch to 6 inches. 10. The presentation display of claim 1 wherein either the left tray or the right tray is 1 assembled using and adhesive. 2 11. The presentation display of claim 1 wherein the presentation display includes a 1 plurality of tabs and corresponding slots which may be folded so as to assemble the display 2 3 without the use of glue, tape, adhesive or fasteners. 12. The presentation display of claim 1 further including a closure tab, said closure tab 1 2 serving to retain the presentation display in a closed position. 13. The presentation display of claim 1 wherein the left tray and the right tray are 1 provided initially in an unassembled state having a substantially flat profile for shipping. 2

- 1 13. The presentation display of claim 1 wherein the sum of the longest dimension plus
- 2 twice the shortest dimension of the display in the unassembled state is less than 84 inches.
- 1 15. The retail package of claim 14 wherein the height of the retail package is in the range 2 of 28 to 30 inches and the width of the retail package is in the range of 20 to 22 inches.
- 1 16. A stacked presentation display which comprises at least two presentation display
- 2 comprising a center panel; a left tray; and a right tray, wherein the left tray is attached to the
- 3 center panel with a first flexible hinge and the right tray is attached to the center panel with a
- 4 second flexible hinge, wherein adjacent presentation displays are attached by means of a stacking
- 5 tab.
